WHAT CAN CLINICAL PHARMACY DO FOR YOU?

- **Medication Education:** Answer any medication related questions that you may have & ensure proper medication use.
- **Medication Review:** Explain the purpose of your medications and improve medication therapy outcomes.
- **Combine medications and possibly reduce unnecessary medication use.**
- **Medication Safety Monitoring:** Screening for medication interactions and possible side effects.
- **Discuss and review treatment and goals.**
- **Offer 30 and 60 minute appointment times to discuss medication concerns in depth.**

Please remember to complete and return the satisfaction survey (JOES) about this appointment if you receive one. You may also provide feedback via

Interactive Customer Evaluation (ICE) link: <https://womack.tricare.mil/About-Us/Contact-Us>
